

Elevate Your Financial Processes with Center and onPhase

Streamlined Expense Management Meets Robust AP Automation

Looking for a more efficient, simple way to manage your spend and expenses? Center and onPhase have teamed up to make your financial life a whole lot simpler, whether you're just starting out or running a big company.

About Center and onPhase

Center modernizes corporate finance with a connected card and software for managing expenses, travel, and employee spending—all with real-time visibility. onPhase automates accounts payable and document workflows for the CFO's back office. Together, they offer comprehensive financial management from corporate purchasing to vendor payments, ensuring seamless financial operations across the board.

I really appreciate that Center is being a resource to me. Recommending onPhase to us shows their commitment to our success.

- David Luu, Finance and Administration

Why This Partnership Matters

- **Smart Financial Tools, Working Together:** Center handles your expenses and travel, while onPhase takes care of invoices and payments.
- **Save Time and Effort:** Handle financial tasks like expense reports and bill payments more quickly and easily.
- **See the Whole Picture:** Know exactly how your company is spending money, right when it happens.
- **Scales with Your Business:** Flexible tools that meet the needs of growing businesses across various industries.
